

Emergency Response Fund Snapshot

September 2021

Northern Piedmont Community Foundation is incredibly grateful to the network of funders — individuals and organizations alike — who have made our Emergency Response Fund possible. Thanks to your generosity, dozens of community groups supported by NPCF have been able to deliver key resources directly to the people who need it most.

In the 21 years since NPCF's founding, a strong, locally-rooted philanthropic community has never been more important, and the power of these community networks has never been more clear. Thank you for everything you continue to do to support NPCF and its mission.
